Welcome to our new topic - "Darwin's Delights"

Welcome to the Galapagos Islands!

Ship ahoy! We are off on an exciting expedition with Charles Darwin and his crew on board the HMS Beagle this half term!

Stop at the magical Galapagos islands and see the amazing species that helped Darwin develop his Theory of Evolution by natural selection. Do you know what is so special about a lava lizard? Do you know what a Sally Lightfoot is? See how animals adapt to their environments over time and experience the truly magical wonders of these incredible islands.

Class Read: Darwin's Dragons

1835. Cabin boy Roly Syme Covington is on the voyage of a lifetime to the Galapagos Islands with world-famous scientist Charles Darwin. But when Roly falls overboard during a huge storm, he is washed up on an unexplored island. Stranded there, he makes a discovery that could change the world.....

Charles Darwin
We will learn lots more about the life and works of Charles Darwin and his impact on the world.
